

Variable	Description	Coverage
Wildfire	Score based on underlying vegetation, drought conditions and housing density	National
Score	Grade (A-F) based upon all wildfire factors	
Text	Text description of the grade	
Wildfire Description	Description of risk conditions	National
Wildfire Risk Score	Numeric range (0-14, 0 is the least risk, 14 is the most risk)	National
Composite Score	Numeric range (0-48, 0 is the least risk, 48 is the most risk)	
Wildfire Risk	Analog risk VH (Very High), H (high), M (Moderate), L (Low), VL (Very Low), None	National
Wildfire Distance to High/Very High Area	Distance to an area scored high or very high for wildfire	National
Value	Distance	
Units	Feet or miles	
Wildfire Housing Density	Number of housing units within a square mile	National
Drought	Drought conditions for the geography. Updated bi-monthly.	National
Score	Grade (C-F) based upon drought conditions	
Text	Text description of the grade	
Wildfire History Parameters	Historic wildfire information	National
Risk	Inside or Outside previous wildfire perimeter	
Year_Name	Event year and the name of the event if applicable to the location	
Number of Wildfires	Number of wildfire perimeters the location is in in the last 19 years	
Number of Wildfires Near	Number of wildfires that have occurred near the location in the last 19 years	
Distance to Significant Wildfire Risk Parameters	Distance in feet to significant wildfire hazard	National
Risk	Description of risk	
Very High	Distance to very high risk in feet up to 8,200 feet	
High	Distance to high risk in feet up to 8,200 feet	
Moderate	Distance to moderate risk in feet up to 8,200 feet	
Fire Season Precipitation Parameters	Rain amounts during wildfire season (May through October)	National
Risk	Description of risk	
Scale	Ranked parameter	
Fire Season Precipitation	Measurement of rainfall amount	
Vegetation Burn Points	Proximity analysis to nearest know vegetation burn points	National
Number of burn points within 1/2 mile	Quantity of points since 2012	
Number of burn points within 1 mile	Quantity of points since 2012	
Fire Protection	Determination of how well protected an address is for fire	National
Score	Grade (A-F) - Based on Distance to Water and Distance to Fire Station	
Text	Text description of the grade	
AAIS Proxy	P5, PP1-PP5, U	
HH FPC Code	HazardHub Fire Protection Class score, mimics AAIS methodology	National
AAIS Fire Protection Class	AAIS fire protection class methodology for score. P1-P5, PP1-PP5, U(distance)	National
Class	to fire station, U Unprotected with distance to fire station.	
Hydrant Fire Station Distance	guidelines provided by AAIS.	
Available Water Type	Either hydrant or perennial water. Must be either to be compliant with AAIS methodology.	
Municipal Boundary	Provides Census information for locations inside a municipality	National
GID	Geographic ID Number	
Placefp	Census Place Code	
Namelsad	Census Place Name	
Type	Type of Census Place	
Census Blocks	Census block identification information	National
Geoid	15 digits - state fips + county fips + tract + block	
State FIPS code	2 digit Census designated state code	
County FIPS code	3 digit Census designated county code	
Tract	6 digit Census designated tract code	
Block	4 digit Census designated block code	
Block group	12 digit Census designated block group code	
State County	Full names of state, county/parrish/island etc and combined State and County FIPS code	National
State	Full name of the State	
Jurisdiction	Full name of the county/parrish/island etc	
State and County FIPS code	Combined State and County FIPS code	
Water Type	Type of water available - Hydrant, Incorporated Place, Perennial water, null	National
Hydrant	Presence of a fire hydrant	National - Partial approx. 92%
Score	Grade (A-F) Based on presence of hydrant and distance to	
Text	Description of distance to nearest reported hydrant	
Hydrant Parameters	Information on hydrant saturation of the area	National - Partial approx. 92%
Distance to nearest hydrant	Description of distance to nearest reported hydrant	
Hydrants within 1,000 feet	Number of hydrants within 1,000 feet of the address	
Cal Fire Information	California Wildfire Designations from Cal Fire	California
Hazard Code Local	Numeric value of risk	
Hazard Class Local	Description of hazard code	
Hazard Code State	State level hazard code	
Hazard Class State	State level description of hazard code	
Drive Distance Fire Station	Road network distance in miles	National
Drive Time Fire Station	Road network drive time in minutes	National
Fire Station Type	Full time paid staffing, blended staffing or volunteer.	National
Nearest Fire Station	Information on the nearest fire station	National

Title	Name of the fire station	
Latitude	Latitude of the fire station	
Longitude	Longitude of the fire station	
Type	Paid staffing, volunteer staffing, or blended staffing	
Response Area	Typical response area	
Units	Distance measurement value	
Distance	Distance	
Number of Fire Stations within 10 miles	Number of stations within a 10 mile radius - maximum value 350	National
Number of Fire Stations within 5 miles	Number of stations within a 5 mile radius - maximum value 150	National
Nearest Fire Station - 2	Information on the second nearest fire station	National
Title	Name of the fire station	
Latitude	Latitude of the fire station	
Longitude	Longitude of the fire station	
Type	Paid staffing, volunteer staffing, or blended staffing	
Response Area	Typical response area	
Units	Distance measurement value	
Distance	Distance	
Drive Distance Fire Station	Road network distance in miles	
Drive Time Fire Station	Road network drive time in minutes	
Nearest Fire Station - 3	Information on the third nearest fire station	National
Title	Name of the fire station	
Latitude	Latitude of the fire station	
Longitude	Longitude of the fire station	
Type	Paid staffing, volunteer staffing, or blended staffing	
Response Area	Typical response area	
Units	Distance measurement value	
Distance	Distance	
Drive Distance Fire Station	Road network distance in miles	
Drive Time Fire Station	Road network drive time in minutes	
Earthquake	Earthquake damage score based on MMI	Conterminous US
Score	Grade (A-F) - based on magnitude	
Text	Damage assessment	
MMI	Mercalli Index	
Shake	Shake assessment	
Richter scale	Numerical scale for expressing the magnitude of an earthquake	
Mudslide	Likelihood of mudslide event	National
Score	Grade C or D - based on proximity to likely event area	
Text	Text description of the grade	
Tsunami	Likelihood of tsunami impact	CA, WA, OR, HI, AK
Score	Grade A or C - based on tsunami evacuation zone	
Text	Text description of the grade	
Hurricane	Likelihood of hurricane event	TX, LA, MI, AL, FL, GA, SC, NC, VA, MD, DE, NJ, PA, NY, CT, RI, MA, NH, ME
Score	Grade (A-F) - based on magnitude	
Text	Damage assessment	
Superfund	Distance to superfund site within 2,500 feet	National
Score	Grade (C-D) - based on distance to nearest	
Text	Text description of the grade	
Brownfield	Distance to brownfield sites within 1,000 feet	National
Score	Grade (C-D) - based on distance to nearest	
Text	Text description of the grade	
Sinkhole	Determination of proximity to existing sinkhole within 10 miles	AL, CO, IA, IN, FL, KY, MO, MN, PA, SC, TN
Score	C or D based on distance, null if > 1,000 feet	
Text	Text description of the grade	
Distance	Distance to nearest sinkhole	
Value	If less than 1 mile in feet, if greater than 1 mile in decimal miles	
Sinkhole Susceptibility	Likelihood of Sinkhole Formation	Conterminous US
Sinkhole Susceptibility Grade	Grade (A-F) - Based on likelihood of events	
Sinkhole Susceptibility Risk	Text description of the grade	
Karst Type	Description of underlying geology	
Climate	Description of climate type which can impact sinkholes	
Rock Type	Description of the type of geological formation	
Closed Depression Grade	Grade (A-F) - Based on likelihood of events	
Closed Depression Risk	In closed depression/subsurface drainage - Does not report if outside of risk area	
Sinkhole Point Grade	Grade (A-F) - Based on likelihood of events	
Sinkhole Distance	Distance to nearest sinkhole	
Wind	Straight Line Wind Event (Non-tornadic over 65 miles per hour)	National
Score	Grade (A-F) - Based on frequency of events	
Text	Text description of the grade	
Wind Per Decade	Number of straight line wind events per decade	National
Hail	Damaging (2") Hail Event	National

Score	Grade (A-F) - Based on frequency of events	
Text	Text description of the grade	
Hail Per Decade	Number of damaging hail events per decade	National
Convection Storm	Thunderstorm Event	National
Score	Grade (A-F) - Based on frequency of events	
Text	Text description of the grade	
Convection Storm Per Decade	Number of convective storm events per decade	National
Tornado	Tornado Event	National
Score	Grade (A-F) - Based on frequency of events	
Text	Text description of the grade	
Tornado Per Decade	Number of tornado events per decade	National
Lightning	Ground Strike Lightning Event	National
Score	Grade (A-F) - Based on frequency of events	
Text	Text description of the grade	
Lightning Per Year	Number of ground strike lightning events per year	National
Weather Parameters	Key weather parameters	National
Annual Average Days Less Than 0 Degrees F	Average number of days with temperatures below 0 degrees F	
Annual Average Days Less Than 10 Degrees F	Average number of days with temperatures below 10 degrees F	
Annual Average Days Less Than 20 Degrees F	Average number of days with temperatures below 20 degrees F	
Annual Average Days Less Than 40 Degrees F	Average number of days with temperatures below 40 degrees F	
Annual Average Days Less Than 50 Degrees F	Average number of days with temperatures below 50 degrees F	
Annual Fall Days Less Than 0 Degrees F	Average number of Fall days with temperatures below 0 degrees F	
Annual Fall Days Less Than 10 Degrees F	Average number of Fall days with temperatures below 10 degrees F	
Annual Fall Days Less Than 20 Degrees F	Average number of Fall days with temperatures below 20 degrees F	
Annual Fall Days Less Than 32 Degrees F	Average number of Fall days with temperatures below 32 degrees F	
Annual Spring Days Less Than 0 Degrees F	Average number of Spring days with temperatures below 0 degrees F	
Annual Spring Days Less Than 10 Degrees F	Average number of Spring days with temperatures below 10 degrees F	
Annual Spring Days Less Than 20 Degrees F	Average number of Spring days with temperatures below 20 degrees F	
Annual Spring Days Less Than 32 Degrees F	Average number of Spring days with temperatures below 32 degrees F	
Annual Winter Days Less Than 0 Degrees F	Average number of Winter days with temperatures below 0 degrees F	
Annual Winter Days Less Than 10 Degrees F	Average number of Winter days with temperatures below 10 degrees F	
Annual Winter Days Less Than 20 Degrees F	Average number of Winter days with temperatures below 20 degrees F	
Annual Winter Days Less Than 40 Degrees F	Average number of Winter days with temperatures below 40 degrees F	
Average Annual Precipitation	Average annual precipitation in inches	
Average Annual Temperature Maximum	Average annual high temperature	
Average Annual Temperature Minimum	Average annual low temperature	
Average Number of Days Below 32 Degrees F	Average Number of non-Winter days below 32 degrees F	
Average Number of Winter Days Below 32 Degrees F	Average Number of Winter days below 32 degrees F	
Cooling Degree Days	Number of degrees in total exceeding 72 degrees annually	
Fall Diurnal Range	Temperature range on a typical Fall day	
Fall Days with Max Temp Below 32 Degrees F	Number of Fall days where the maximum temperature is less than 32 degrees F	
Heating Degree Days	Number of degrees in total below 68 degrees annually	
Spring Days with Max Temp Below 32 Degrees F	Number of Spring days where the maximum temperature is less than 32 degrees F	
Spring Diurnal Range	Temperature range on a typical Spring day	
Winter Days with Max Temp Below 32 Degrees F	Number of Winter days where the maximum temperature is less than 32 degrees F	
Winter Diurnal Range	Temperature range on a typical Winter day	
Average Annual Snowfall	Average annual snowfall in inches	
Average Fall Snowfall	Average amount of snowfall during Fall months	
Average Spring Snowfall	Average amount of snowfall during Spring months	
Average Winter Snowfall	Average amount of snowfall during Winter months	
Avg Num of Days w/ Snowfall >10 inches	Average number of days with snowfall greater than 10 inches	
Avg Num of Days w/ Snowfall >1 inch	Average number of days with snowfall greater than 1 inch	
Fall Days Snow Depth Greater than 10 Inches	Number of Fall days with snow depth greater than 10 inches	
Fall Days Snow Depth Greater than 1 Inch	Number of Fall days with snow depth greater than 1 inch	
Fall Days Snow Depth Greater than 3 Inches	Number of Fall days with snow depth greater than 3 inches	
Fall Days Snow Depth Greater than 5 Inches	Number of Fall days with snow depth greater than 5 inches	
Spring Days Snow Depth Greater than 10 Inches	Number of Spring days with snow depth greater than 10 inches	
Spring Days Snow Depth Greater than 1 Inch	Number of Spring days with snow depth greater than 1 inch	
Spring Days Snow Depth Greater than 3 Inches	Number of Spring days with snow depth greater than 3 inches	
Spring Days Snow Depth Greater than 5 Inches	Number of Spring days with snow depth greater than 5 inches	
Winter Days Snow Depth Greater than 10 Inches	Number of Winter days with snow depth greater than 10 inches	
Winter Days Snow Depth Greater than 1 Inch	Number of Winter days with snow depth greater than 1 inch	
Winter Days Snow Depth Greater than 3 Inches	Number of Winter days with snow depth greater than 3 inches	
Winter Days Snow Depth Greater than 5 Inches	Number of Winter days with snow depth greater than 5 inches	
Hardiness Zones	Hardiness zones for determining extreme minimum temperatures	National
Average Extreme Minimum	Average extreme minimum temperature in 10 degree increments	
Hardiness Zone	Hardiness zone	
Average Extreme Minimum - 5 Degree	Average extreme minimum temperature in 5 degree increments	
Zone Segment	Hardiness zone segment	
Designated Fault	In or Out USGS eastern designated fault zone(s)	Eastern States
Score	Grade C or A - In or Out of eastern designated fault zone	
Text	Text description of the grade	

Fracking Earthquake	In or Out HH fracking earthquake zone	National
Score	Grade C = In	
Text	Text description of the grade	
Fault Earthquake	Distance to Known Earthquake Fault	Western States
Score	Grade (A-F) - Based on distance to known earthquake fault	
Text	Text description of the grade	
Ice Dam Index	Susceptability Model for Ice Dams	National
Index	Likelihood of Ice Dams	
Score	Grade (A-F) - Based on likelihood to get an Ice Dam	
Text	Text description of the grade	
Frozen Pipe Index	Susceptability Model for Frozen Pipes	National
Index	Likelihood of Frozen Pipes	
Score	Grade (A-F) - Based on likelihood to get Frozen Pipes	
Text	Text description of the grade	
Potential Maximum Precipitation	Maximum 24 hour rainfall amount in inches	National
HazardHub Flood	Worst case flood scenario	National
Score	Grade (A-F) - Based on likelihood to get wet	
Text	Text description of the grade	
HH Flood Parameters	Components to HH Flood Score	National
Dist	Distance to nearest polygon/line (in feet)	
Elevnff	Elevation of nearest flood polygon/line	
Elev_pt	Elevation of point	
Diff	Difference between elevation of point and elevation of nearest flood polygon/line	
Lines_distance	Distance to nearest water line (in feet)	
Lines_diff	Difference between height of water line & subject property	
Lines_score	HazardHub Flood Score to nearest Line	
Polygons_distance	Distance to Nearest Water Polygon (in feet)	
Polygons_diff	Difference between height of water polygon & subject property	
Polygons_score	HazardHub Flood Score to nearest Water Polygon	
Polygon_type	What type of water polygon are we describing	
Polygon_descrip	Description of water polygon	
FEMA All Flood	Determination of Flood Risk according to the FEMA Digital Maps	National
Score	Grade (A-F) - Based on 100 year flood (F), 500 year flood (D), Minimal risk zone (B)	
Text	Text description of the grade	
FEMA All Flood Parameters	The individual components of FEMA Flood - the values of null, blank, -9999, -8888 all represent no applicable data. This is how the data is received from FEMA.	National
FEMA Dfirm Id	FIRM Database ID	
FEMA Version Id	FEMA Version ID	
FEMA Fld Ar Id		
	Primary key for table lookup. Assigned by table creator.	
FEMA Study Typ	Acceptable values for this field are listed in the D_Study_Typ table.	
FEMA Fld Zone	and for insurance rating purposes. NOTE: The symbol '%' is a reserved symbol in most software	
FEMA Zone Subty	insurance rating purposes. For example, insurance rate zone Shaded X could have "PROTECTED BY	
FEMA Sfha Tf	for any area coded as an A or V flood zone area. It should be false for any X or D flood areas.	
FEMA Static BFE	a constant Base Flood Elevation (BFE) over a flood zone. The BFE value will be shown beneath the	
FEMA V Datum	are measured. Normally, this would be NAVD88. Acceptable values for this field are listed in the	
FEMA depth	This field is only populated if a depth is shown on the FIRM.	
FEMA Len Unit	Normally this would be feet. This field is only populated if the STATIC_BFE or DEPTH field is	
FEMA Velocity	Data table. This field is populated when a floodway is defined. This value is used in the FDTs.	
FEMA Vel Unit	Unit of measurement to gauge velocity	
FEMA Ar Revert	Flood Control Restoration Zones – Zone AR Classification. If this area is Zone AR in FLD_Zone field,	
FEMA Ar Subtrv	Flood Control Restoration Zones – Zone AR Classification Zone Subtype. If this area is Zone AR in	
FEMA BFE Revert	hold the static base flood elevation for the reverted zone. This field is populated when Zone equals	
FEMA DEP Revert	would hold the flood depth for the reverted zone. This field is populated when Zone equals AR and	
FEMA Dual Zone	effective FIRM shall be designated as "dual" flood insurance rate zones (i.e., Zone AR/AE, Zone	
FEMA Source Cit	the feature. The abbreviation must match a value in L_Source_Cit.	
FEMA FIRM Date	obtained from the FIRM legend, index, or FIS report. This information can also be obtained from	National
FEMA FIRM Date CID	State FIPS code and the four-digit FEMA CID code (e.g., 480001). For a countywide flood risk project,	
FEMA FIRM Date Name	FIRM Place Name	
FEMA FIRM Date Type	FIRM Place Type	
FEMA Firm Date fhmb_id	Initial hazard boundary map ID date	
FEMA Firm Date infirmid	Initial FIRM ID date (Cutoff for FIRM/non-FIRM buildings)	
FEMA Firm Date effmpdt	Current effective date for flood map	
FEMA Firm Date regemerdt	Date community entered the program either in an emergency or the regular program	
FEMA Community Name	Name of participating community	
FEMA Community Name Entry Date	Date that participating community entered the program	
FEMA Community Name Eff Date	Applicable date of program participation	
FEMA Current Class	Numeric Score	
FEMA % Discount sfha	Special Flood Hazard Area - NFIP discount for participating communities	
FEMA % Discount non sfha	Non Special Flood Hazard Area - NFIP discount for participating communities	
FEMA Status	FEMA status code	
FEMA Base Flood Elevation (BFE)	The Base Flood Elevation	National

Text	Text Expression of Base Flood Elevation	
Meter	Distance to BFE (meters)	
Distance		
Value	Distance	
Units	Feet/miles distance	
Elevation		
Value	BFE Elevation	
Units	Elevation units (feet)	
Elevation In Feet	Property elevation (not a substitute for an elevation certificate).	National
Wind Pool		East Coast and Gulf States
Score	Grade = D Based on being inside of a state-designated wind pool	
Text	In or Out of a designated wind pool	
Name	State designated name of the wind pool	
Wind Region	Grade = C If in HH defined areas of sustained winds	National
Wind Borne Debris	State of Florida wind borne debris zones	Florida
Score	Grade (A-F) - Based on zone designation	
Text	Text description of the grade	
Mine Subsidence	Earth depressions caused by mining	IN, IL, KY, OH, PA, WV, WY
Score	Grade = D if in a mine subsidence area	
Text	Text description of the grade	
SurgeMAX	Coastal storm surge zones	National
Score	Grade (A-F) - Based on presence in a given zone	
Text	Text description of the grade	
Coast Distance	Distance to coast. Any point more than 35 miles is >35 Miles	States with a coastline
Distance	Measurement of distance to coast	
Units	If less than 1 mile in feet, if greater than 1 mile in decimal miles	
High Resolution Distance	Distance to nearest water impacted by ocean/tides	
Distance	Measurement of distance to coast	
Units	If less than 1 mile in feet, if greater than 1 mile in decimal miles	
Low Resolution Distance	Distance to "the beach"/shore	
Distance	Measurement of distance to coast	
Units	If less than 1 mile in feet, if greater than 1 mile in decimal miles	
Murder	Murder grade (based on projected FBI statistics)	National
Score	Grade (A-F) - Based on murder likelihood	
Text	Text description of the grade	
Forcible Rape	Forcible Rape grade (based on projected FBI statistics)	National
Score	Grade (A-F) - Based on forcible rape likelihood	
Text	Text description of the grade	
Forcible Robbery	Forcible Robbery grade (based on projected FBI statistics)	National
Score	Grade (A-F) - Based on forcible robbery likelihood	
Text	Text description of the grade	
Aggravated Assault	Aggravated Assault grade (based on projected FBI statistics)	National
Score	Grade (A-F) - Based on aggravated assault likelihood	
Text	Text description of the grade	
Burglary	Burglary grade (based on projected FBI statistics)	National
Score	Grade (A-F) - Based on burglary likelihood	
Text	Text description of the grade	
Larceny	Larceny grade (based on projected FBI statistics)	National
Score	Grade (A-F) - Based on larceny likelihood	
Text	Text description of the grade	
Motor Vehicle Theft	Motor Vehicle Theft grade (based on projected FBI statistics)	National
Score	Grade (A-F) - Based on motor vehicle theft likelihood	
Text	Text description of the grade	
Crime	Overall crime grade (based on projected FBI statistics)	National
Score	Grade (A-F) - Based on overall crime likelihood	
Text	Text description of the grade	
Radon	Based upon average indoor radon screening levels	National
Score	Grade (A-F) - Based on overall radon likelihood	
Text	Text description of the grade	
Landslide	Based on Likelihood of landslide	National
Score	Grade (A-F) - Based on overall landslide likelihood	
Text	Text description of the grade	
Re Tier Counties	Designation for wind impact - designated Tier 1 or Tier 2	East Coast and Gulf States
Premium Tax	True/False for Premium Tax present in state	MN, MS, MO, NC, ND, NJ, NY, PA,
Premium Tax - Parameters	Detailed data about Premium Tax, with the following fields	National
Premium Tax HH ID	Unique Hazard Hub ID	
Premium Tax FIPS	Combined State, County, Place Federal Information Processing Standards Code	
Premium Tax County	County Name	
Premium Tax City	City Name	
Premium Tax City Designation	City Type: ie; City, Town, Village based on Census Designation	
Premium Tax Authority TA	Lowest level taxing authority	
Premium Tax FIPS TA	Lowest level taxing authority Federal Information Processing Standards Code	

Premium Tax Fire Zone	Fire Taxing District	
Premium Tax Tax CD 1	of Revenue. For the state of Florida this is the "Fire Code".	
Premium Tax Tax CD 2	in other states except for FL.	
Premium Tax DT Vint	Date last edited/Vintage Date	
Premium Tax GNIS	Geographic Name Information System Code	
Premium Tax - KY	True/False for KY Premium Tax	Kentucky
Premium Tax - KY - Parameters	Parameters for KY Premium Tax, including the following fields	Kentucky
COUNTY_ PREM_HH_ID	Unique Hazard Hub ID	
COUNTY_ NAME	County Name	
COUNTY_ FIPS	County FIPS Code	
COUNTY_ STATE	County State	
COUNTY_ AUTH_TA	County Taxing Authority Name	
COUNTY_ FIPS_TA	County Taxing Authority FIPS Code	
COUNTY_ TAX_CD_1	County Tax Code 1	
COUNTY_ TAX_CD_2	County Tax Code 2	
COUNTY_ FIRE_PER	FIRE/ALLIED PERILS (%)	
COUNTY_ CAS_LI_ONL	CASUALTY LIABILITY ONLY (%)	
COUNTY_ VEHICLE	VEHICLE (%)	
COUNTY_ IN_MARINE	INLAND MARINE (%)	
COUNTY_ HEALTH	HEALTH (%)	
COUNTY_ LIFE	LIFE (%)	
COUNTY_ ALL_OTHERS	ALL OTHER RISKS TAXED 9%)	
COUNTY_ MIN_TAX	MIN TAX (Dollar Amount)	
COUNTY_ DT_VINT	Date last edited/Vintage Date	
COUNTY_ GNIS	Geographic Name Information System Code	
MUNICIPAL_ PREM_HH_ID	Unique Hazard Hub ID	
MUNICIPAL_ NAME	Municipality Name	
MUNICIPAL_ NOTES	Municipality Notes	
MUNICIPAL_ STATE	Municipality State (KY)	
MUNICIPAL_ FIPS	Municipality FIPS Code	
MUNICIPAL_ COUNTY	Municipality County Name	
MUNICIPAL_ AUTH_TA	County Taxing Authority Name	
MUNICIPAL_ FIPS_TA	County Taxing Authority FIPS Code	
MUNICIPAL_ TAX_CD_1	County Tax Code 1	
MUNICIPAL_ TAX_CD_2	County Tax Code 2	
MUNICIPAL_ FIRE_PER	FIRE/ALLIED PERILS (%)	
MUNICIPAL_ CAS_LI_ONL	CASUALTY LIABILITY ONLY (%)	
MUNICIPAL_ VEHICLE	VEHICLE (%)	
MUNICIPAL_ IN_MARINE	INLAND MARINE (%)	
MUNICIPAL_ HEALTH	HEALTH (%)	
MUNICIPAL_ LIFE	LIFE (%)	
MUNICIPAL_ ALL_OTHERS	ALL OTHER RISKS TAXED 9%)	
MUNICIPAL_ MIN_TAX	MIN TAX (Dollar Amount)	
MUNICIPAL_ DT_VINT	Date last edited/Vintage Date	
MUNICIPAL_ GNIS	Geographic Name Information System Code	
UST - Underground Storage Tank Risk	Based on Distance to Nearest Underground Storage Tank	National
Score	Grade C or D - Based on distance to nearest UST up to 1 mile	
Text	Text description of the grade	
UST - Nearest Facility Parameters		National
FAC_ID	HazardHub Facility ID	
NAME	Name of nearest facility with Underground Storage Tanks	
ADDRESS	Street Address of nearest facility with Underground Storage Tanks	
STATE	State of nearest facility with Underground Storage Tanks	
CITY	City of nearest facility with Underground Storage Tanks	
ZIPCODE	ZIP Code of nearest facility with Underground Storage Tanks	
NUM_TANKS	Number of Underground Storage Tanks at nearest facility	
UST - FACILITIES Count in quarter mile radius	Summary of number of tanks in 1/4 mile radius - maximum value 1,000	National
UST - FACILITIES Count in half mile radius	Summary of number of tanks in 1/2 mile radius - maximum value 3,000	National
UST - FACILITIES Count in 1 mile radius	Summary of number of tanks in 1 mile radius - maximum value 5,000	National
Nuclear Site - Risk	Based on Nuclear Plant Proximity	National
Score	Grade (A-D) - Based on distance to nearest nuclear facility in miles	
Text	Text description of the grade	
Nuclear Site - Nearest Site Parameters	Name of nearest Nuclear Facility and # of reactors	National
Distance	Distance to nearest nuclear plant	
Value	Distance	
Units	Feet or miles	
Name	Name of Nuclear Plant	
Type	Description of Nuclear Plant	
Reactors	Number of Reactors	
Volcano - Risk	Grade (A-F) - Based on Volcano Proximity	National
Volcano - Nearest Volcano Parameters	Name of nearest Volcano	National
Volcano distance	Distance to nearest volcano (miles)	

Volcano name	Name of nearest volcano	
Volcano status	Status of nearest volcano	
Volcano elevation	Elevation of nearest volcano	
Volcano type	Type of nearest volcano	
Drug & Alcohol Deaths	Grade (A-F) of Deaths from Drugs & Alcohol	National
Score	Grade (A-F) - Based on frequency of event per 100,000 population	
Text	Text description of the grade	
Drug & Alcohol Deaths	Count of number of deaths (County)	
Drug & Alcohol Score	Text Description of Drug & Alcohol Grade	
Drug & Alcohol Rate Per 100K	Drug & Alcohol death rate per 100,000 people	
Toxic Release Facilities	Grade (A-F) - Based on Toxic Release Facility Proximity	National
FAC_ID	Facility ID	
FED_ID	Federal ID	
Name	Name of nearest Toxic Release Facility	
Address	Street Address of nearest Toxic Release Facility	
City	City of nearest facility with Underground Storage Tanks	
State	State of nearest Toxic Release Facility	
ZIPCode	Zip Code of nearest Toxic Release Facility	
Industry	Industry of nearest Toxic Release Facility	
Chemical	Chemical contained at nearest Toxic Release Facility	
Carcinogen	Y/N if substance is carcinogenic	
Distance	Distance to nearest Toxic Release Facility	
Clandestine Drug Labs	Illegal drug facilities that have been closed down	National
Address	Address of known location	
Date	Date address entered the database	
Distance	Straight line distance to nearest location	
Number within five miles	Number of known facilities within five miles	
Police Stations	Locations of Police Stations	National
Name	Name of nearest station	
Distance	Straight line distance to nearest location	
Number within five miles	Number of known stations within five miles	
LAT	Latitude of Property	National
LON	Longitude of Subject Property	National
STATE	State of Subject Property	National
Location Type	Google geocode accuracy - rooftop, coordinates etc.	National
google_maps_url	hyperlink to google maps location	National
Enhanced Property Data	County Assessor Data	National
Address	Full street address	
APN	Assessor's parcel number	
Use Code	Type of use for property	
Assessed Improvement Value	Assessed improved value of the property	
Assessed Land Value	Assessed value of the land	
Assessment Year	Year of assessment	
Building Area	Square feet of building area	
Building Area 1	Square feet of additional building area	
Garage Cars	Number of cars to fit in garage	
Garage Type	Yes/No or Type of garage	
LSale Price	List sale price	
LSale Price Code	List sale price code	
LSale Recording Date	List sale recording date	
LotSize Acres	Lot acreage	
LotSize Frontage Feet	Lot length of frontage in feet	
LotSize Square Feet	Lot size in square feet	
Main Building Area Indicator	Main living area type defined	
N of Plumbing Fixtures	Number of plumbing fixtures	
Number of Baths	Total number of baths	
Number of Bedrooms	Total number of bedrooms	
Number of Partial Baths	Total number of partial baths	
Number of Units	Number of dwelling units	
Owner 1 First Name	Owners 1 first name	
Owner 1 Last Name	Owners1 last name	
Owner 2 First name	Owners 2 first name	
Owner 2 Last Name	Owners 2 last name	
PSale Price	Previous sale price	
School Tax District 1	School Tax District one	
School Tax District 1 Indicator	School Tax District one description	
School Tax District 2	School Tax District two	
School Tax District 2 Indicator	School Tax District two description	
School Tax District 3	School Tax District three	
School Tax District 3 Indicator	School Tax District three description	
Standardized Land Use Code	Land use code	
Tax Amount	Tax amount in dollars and cents	

Tax Rate Code Area	Code for the properties tax area	
Total Assessed Value	Assessed value of the property	
Total Market Value	Market value of the property	
Total Number of Rooms	Total number of rooms	
Year Built	Year the structure was built on the property	
No of Stories	Number of stories	
Owner Occupied	Occupant Type	
MLS Listing Record		National
list date	Date of which the property was listed via the MLS	
list price	Price of which the property was listed via the MLS	
MLS Listing Record Details		National
Ad geo altitude	Listing advertisement elevation	
ad zone features	Listing advertisement zone	
ex construction features	Exterior construction features
